

Voluntary Device Protection Plan

Litchfield Public Schools is offering voluntary device protection for \$20 per year per device. Any student or staff member who is assigned a school laptop may pay this premium at the beginning of the year, which will then act as insurance on that device all year.

If a family opts into this coverage, any qualified damage (see below) that occurs on that device during that year will result in no cost to the family. In the past, damages were paid out of pocket by the student.

Types of and exceptions to damage are outlined below:

- Damages are any negative change to a device's hardware and/or functioning, occurring during the covered school year, that would be billed to the school upon the end of the device's lease.
- Damages that are unrelated to any misuse or care of the student *may* at the school's discretion be waived. This does not include damages that aren't noticed or that the user does not know the reason for.
- Damages that are related to misuse by others are still subject to this policy. The exception is damages made by other Litchfield students. If evidence suggests this in the opinion of the school, the student at fault will be responsible.

Participation in this program entitles each device to one covered repair. Administration reserves the right to charge the following deductibles on additional repairs within the same school year: For a 2nd repair: \$25 or 1/2 of repair cost, whichever is lower. For a 3rd repair: \$40 or 1/2 of repair cost, whichever is lower. Additional repairs beyond that: entire quoted cost of repair.

Administration also reserves the right to bill a student for full repairs if damage is known to have been done intentionally or with extreme neglect.
